

**REMARKS/ARGUMENTS**

Claims 1-30 are pending in the application subsequent to entry of this Amendment.

Claim 19 as filed is dependent on itself. This has been corrected to depend from claim 18.

Amendments are also made to page 8 of the specification and a corresponding change to claim 20 to correct an error in the units used to denote white light irradiation. This error would be obvious to one skilled in the art, because the doses in  $\text{kJ}/\text{cm}^2$  would be far too high. The white light dose used in Example 8 of 44,000 lux for 10 minutes corresponds to  $3.85 \text{ J}/\text{cm}^2$ , which is within the corrected range, but not within the erroneous range currently given.

An early and favorable action on the merits is awaited.

Respectfully submitted,

**NIXON & VANDERHYE P.C.**
